Eli high back chair

Discreet, elegant and stackable, the versatile Eli Chair even has two different sizes to offer. This flexibility makes the chair ideal for the hospitality and contract markets. Move and place it anywhere indoors where a seat is needed and it won't look out of place. A frame of either beech, ash, or solid oak gives the chair its strength and sturdiness, and comfort is assured with the soft, upholstered back and seat.

TUCANA

Design Enrique Martí

Never again feel you have to decide between the beauty and warmth of wood and the sensual softness of fabric. Enjoy both in the Tucana Chair. The front-facing backrest and seat are attractively upholstered while the back and legs of the chair show off the charm of beech, ash, or oak wood. Little details matter too: a small hole in the wooden backrest makes for easier handling of the chair.

The designer had striven to make it "the most comfortable upholstered chair in the world". Elegant and voluptuous in volume, rounded and modern in design, Blow is in a class of its own. Its ability to be stackable up to three units is an added bonus. Both side chair and arm chair are available in solid beech, ash, and oak.

CADY & AIDA

Design Enrique Martí

Upholstered comfort, light for its category and stackable up to three chairs, the Cady has all the features that make this chair a popular item to have on hand for any indoor setting. The low rounded backrest with soft surround snugly cradles and supports the back. Cady is available as a side chair and barstool.

Add a large dose of luxury to the classical upholstered chair and you have the Aida. Rounded edges, softness of premium foam and fabric, and rounded tapered solid beech, ash, or oak legs give this popular chair its sumptuous comfort and elegance. The Aida is available as a non-stackable side chair and offers a wide choice of fabric colours

ÓPERA

Design Enrique Martí

Clearly designed along the classical lines of the past, Ópera fills the gap between the high-end, elegant chair and the pure wooden chair. The luxuriously upholstered back and seat sit on solid beech, ash, or oak legs. This non-stackable chair is available as a side chair, with and without the cut-out in the backrest.

COUNTRY II

Design Enrique Marti

Country I chair
W510 x D545 x H790 x SH450mm
Packing: 0.327m³, 2pcs/ctn

Aptly named the Country chair, it's a clear example of how the same design can be adapted to suit different cultures and styles by changing only slight details such as the backrest. Country's easy adaptability allows distinctive features of different cultures to be incorporated into the design as the chair crosses borders from Europe to Asia. Country I is distinctively Italian in feel.

Four different designs show off how the Country chair can look the same, and yet not be the same. Country II, for instance, is reminiscent of a Ming chair from China's dynastic past. All it takes is a single broad vertical addition to the backrest to give it an Oriental flavour.

It's the same sturdy frame. Simply exchange the vertical backrest for some wooden spokes, angle them for a different effect, and a new version of the chair is born. Country III recalls the furniture style of England.

The more classic-looking Country IV, evocative of Denmark's furniture, is achieved by dovetailing the slants of the wooden spokes towards the seat of the chair. NORDIC & FLY

Design Enrique Martí

This jewel of a chair is a high tribute to the wood from which it is formed. All the characteristics for which wood is loved are included in the Nordic arm chair: wood's natural beauty, its wild look and kind strength, and its soft touch and soft embrace. Comfort is already a given. Made of solid beech or ash. Nordic also has an upholstered seat.

The minimalist Fly chair has an inviting solid bentwood backrest with slim extended arms that suggest continued trajectories over the seat of the chair. The seeming flight of the arms over the upholstered seat gives this side chair a certain sense of lightness that belies its actual strength. Fly is stackable up to two units and is available in solid beech or ash.

BIRDIE & FUJI

Design Enrique Martí

Birdie chair
W540 x D530 x H765 x SH460mm
Packing: 0.279m³, 1pc/ctn

There's something playful about the Birdie chair. Ingeniously combining the traditional concept of a single rounded backrest with contemporary double-single legs, Birdie brings to mind a charming little bird confidently balanced on a branch. The veneered plywood of the backrest gives this delightful chair unsurpassed comfort. See it in beech, ash or oak, with upholstered or veneered plywood seat.

GRADO

Design Enrique Martí

A popular chair of the 1980s finds modern expression in the Grado chair. Light and comfortable, this reinterpreted retro chair is also charmingly uncomplicated in design, except for two signature indents at the base of the backrest which single this chair out from the also-rans. The backrest flows seamlessly into the seat in a single smooth sweep, accentuating Grado's elegance. The side chair version is stackable up to five units.

DANA & TAURO

Design Enrique Martí

With soft sensual curves in all the right places ranged up against the solid straightness of a strong frame, this reinterpretation of a Scandinavian classic design has an arresting presence. Dana's beguiling allure is heightened by its petite build and lightness of weight. Enjoy this beauty with or without upholstered seat and back. Dana is available in beech, ash, or oak. Non-stackable.

History and the present merge in the Tauro Chair, a perfect blend of the traditional and the contemporary. In the classic style of early 20th Century wooden chairs, Tauro looks slim, light and even a little petite. But looks are not everything. It's also built to be sturdy, strong and comfortable, and will easily fit almost any indoor environment. Seat and backrest are available in beech, ash, or oak veneer.
