

A photograph of an outdoor dining area featuring a long, light blue table and several modern, curved chairs in shades of red and orange. The chairs have a distinctive curved backrest and thin legs. The table is set with plates, glasses, and a small potted plant. The background shows more greenery and a paved ground.

Our Sustainability Journey

To ensure a brighter future for the world and generations to come, we at KIAN, have begun taking sustainable steps in order to help curb this growing epidemic. By partnering ourselves with a fully integrated recycling company in Malaysia, Plashaus, we have succeeded in manufacturing our award-winning Louvre and 120 chairs using sustainable Ocean Plastic (OP), with more products in the works.

OP is made of 100% recycled ocean-bound plastic that has been ethically gathered from coastlines around Malaysia. Both of our companies worked closely with each other for months, prototyping multiple iterations to perfect the suitable material pellet formula which was then used to fabricate strong, sturdy and sustainable chairs fit for commercial use.

By giving our customers this sustainable option, we would like to invite you to join us on our journey towards sustainability. Make the change with us for a greener, healthier Mother Earth.

Stackable

Inspired by the American Midwest style and Shaker craftsmanship, the stackable Louvre chair is a lightweight chair with an open backrest. It reinterprets the design of traditional wooden chairs and utilises the quality of modern plastic injection moulding technology. It is a no-nonsense design that is enjoyable and familiar to the user, and at the same time, modern and fun. The Louvre Chair is stackable and can be used indoors and outdoors.

Made from 100% Ocean Plastic (OP).

Polypropylene and mild steel combine to present modern sophistication, pure lines and a sturdy, stackable chair in ultra-fresh colours. The 120 chair is inspired by a triangle's inherent strength. Look for the chair's unique feature of three 120° angles, adjacent to each other, forming the joint between the front leg and the chair seat.

The plastic component is made from 100% Ocean Plastic (OP).

Lipia highstool
W397 x D400 x H744mm
Packing: 0.200m³, 1pc/ctn

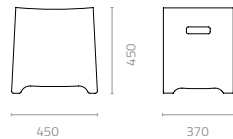

Even more than its refined aesthetics, the functional design of the Lipia Highstool makes it an outstanding choice for university canteens, hospitality bars, transportation centres and outdoor public spaces. The two-level footrests allow people of all heights to sit comfortably.

The Rumble Series has an element of fun about it. Manufactured using the rotational moulding process, the hardy bench and stool are highly suitable for heavy-duty indoor and outdoor use. Bright vibrant colours and rounded edges make this child-friendly series an ideal furniture solution in educational settings.

This series features dramatic volume while preserving graceful, natural curves. The wide seats comfortably fit people of all sizes.

The Obie Arm Chair and Love Seat are designed for both indoor and outdoor spaces. Fashioned from polyethylene, this collection enjoys the considerable benefits of UV protection, imperviousness to fluids, durability and ease of cleaning. Using a single material in its construction also allows for cost-effective recycling.

Talk about being luxuriously lazy in your back garden! Everything about The China Bed (TCB) recalls the indulgent ease of opium smokers on their beds in China's past. A sunshade keeps the sun from the eyes while one snoozes or reads and even getting up for a drink poses no problems. That's because TCB has a slightly sunken tray for holding a cup or glass. Corner units can be combined to form a two-seater.

Fancy feeling cosily suspended in midair when sitting or lying down? Like big cradles, the 1-seater, 2-seater and 3-seater in the Neo Collection all seem to dangle weightlessly in the air, supported at both ends by legs of sturdy teak wood or powder-coated steel. Wide armrests easily balance a drink or a book. The Collection is constructed of flat wicker on aluminium frames with foam cushions in Sunproof outdoor fabric.

Since time immemorial, handmade hemp baskets have met human needs in countless ways: from storing food to cradling babies to trapping fish. Their rounded shapes are the inspiration for the very adaptable Basket Chair of contemporary design. Made of stainless steel and plastic wicker, this comfortable non-stackable outdoor chair stands out for its comfort, attractiveness and easy fit into almost any kind of environment.
