KIAN is the licensed distributor in Southeast Asia and the exclusive distributor in China for Paged Meble SA. This leading furniture manufacturer began operations in 1881 and is one of the few manufacturers in the world that produce Michael Thonet bentwood furniture with cutting-edge WRB® Technology.

Paged harnesses its extensive knowledge and advanced technology to offer original furniture solutions that are 100% designed, manufactured and assembled in Poland. Modern machinery is used, as well as the best materials, well-thought-out designs, and carefully selected FSC-certified raw materials. Paged utilises WRB® Technology which isolates the inner structure of wood from water, even if the external coating is wet or exposed to rain, ensuring that these weather resistant bentwood chairs are unlike any other. All products carry a two-year warranty against manufacturing defects.
